Education

Bachelor's of Software Engineering

Gandaki College of Engineering and Science (GCES), Pokhara University
Pokhara, Nepal 2021 – 2025

Experience

Backend Engineer – Intern

Brand Builder

Pokhara, Nepal, Nov. 2025 – Feb. 2026

- Delivered a production-ready Gen AI-powered personal finance assistant by building a full pipeline from OCR ingestion (PyTesseract, EasyOCR) through Gemini 2.5 Flash + LangChain restructuring to Firebase storage.
- Built and deployed the complete FastAPI backend using Docker and Railway, achieving a production-ready API with zero manual data entry.
- Collaborated cross-functionally with frontend and product teams to ship a market-ready application pending commercial release.

Projects

AI Quiz App – Intelligent Assessment Platform [[Link](#)]

Python, FastAPI, LangChain, Generative AI, HTML, CSS, JS

- Developed a comprehensive AI-powered quiz application leveraging LangChain and Groq/Gemini API models to generate dynamic assessments from multiple document formats.
- The platform processes PDFs, Word documents, and YouTube transcripts to create intelligent quizzes with real-time responses.

Receipt AI – Intelligent Document Processing System

Python, FastAPI, LangChain, Gemini 2.5 Flash, Firebase, Docker

- Architected a multi-modal document pipeline combining PyTesseract and EasyOCR for extraction with an LLM layer for structured data normalization.
- Containerized the service with Docker and deployed to Railway, enabling reliable production-grade API availability.

Movie Recommendation System[[Link](#)]

Python, Pandas, Scikit-learn

- Developed a collaborative filtering engine using cosine similarity for personalized movie recommendations with full preprocessing pipelines.

PerfectCare NZ – Business Website[[Link](#)]

React.js, HTML, CSS, JavaScript

- Designed and delivered a responsive, mobile-first React.js website now live and actively serving customers in New Zealand.

Technical Skills

AI & ML: LLMs, LangChain, RAG, FAISS, ChromaDB, NumPy, Pandas, Matplotlib, Seaborn Scikit-learn, NLP, EDA, Feature Engineering

Languages: Python, JavaScript, C/C++, Java (basic), SQL **Backend & API:** FastAPI, Django, DRF, REST APIs, JWT **Frontend:** React.js, Streamlit, HTML,

CSS, Tailwind CSS

Data & Storage: PostgreSQL, SQLite, MySQL, Firebase, Supabase, ChromaDB, FAISS

Tools: Docker, GitHub Actions (CI/CD), Vercel, Railway, Render, Git, Postman
